## PASUL 1

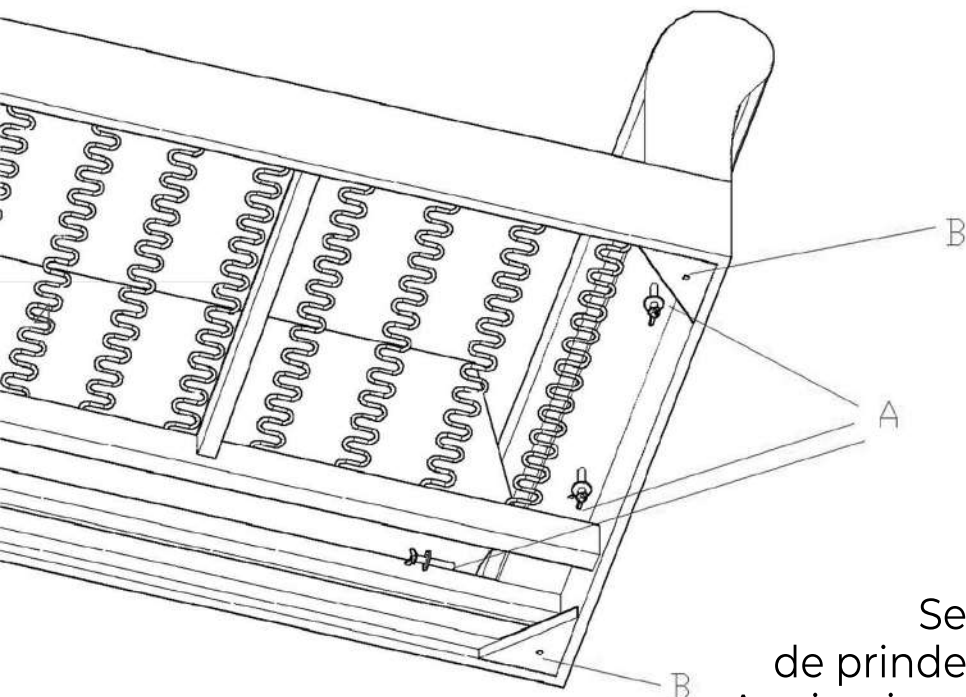

Se ridica spatarul conform sagetii, apoi se ridica structura formand litera "L" vazuta din lateral cat sa aveti acces sub canapea (ca in figura)

## PASUL 2

Se insurubeaza cate o piesa in zona laterala interna a fiecarui brat. Se pozitioneaza bratele pe structura. Atentie! Zonele de prindere pe laterala interna sa fie pozitionate in dreptul spatarului conform schitei

A 6X

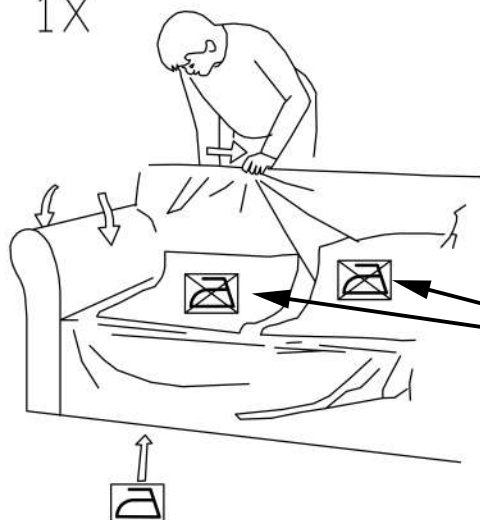

B 4X

### PASUL 3

Se insurubeaza in cele 6 zone de prindere (A), cate 3 la fiecare brat. Apoi se insurubeaza cele 4 picioare (B). Se ridica in pozitia normala.
